Canoe Sprint Athletes

Dear ICF Board of Directors members, Dear Chair of the ICF Athletes Committee,

We, athletes and coaches, representatives of the Canoeing in our countries, and representatives of our countries in the international competitions, real fans of our Sport are concerned about the last news and in what direction our Sport is moving! We always talk about popularization and development of Canoe Sprint, about "moving forward", but the latest news about the program of the 2017 ICF World Championships caused a storm of negative emotions!

We do not agree with the direction you are sending us, we do not understand and we do not know who makes these decisions, and what you are guided by!

The program of the Olympic Games has already put the end to the C-1 men 200m. The program of the World Championships puts the end to the mass character of our Sport! The traditional Canoe-four event is totally disappearing... This is a great tragedy! We, the athletes, do not understand these decisions. In accordance with the 2017 ICF Canoe Sprint Competitions Rules, paragraph 34.1.2 the ICF breaks its own rules. At the moment many athletes (crews) who have been preparing for the new season are now faced with the fact that the events are not in the program of the World Championships.

This is our common tragedy and we would like to draw your attention that we do not agree with these decisions, we kindly request to get your explanations, and finally, we would like to have the active representative of the athletes on the meetings where these decisions are taken. Nobody of the ICF Athletes Committee has discussed this topic with the athletes; nobody asked our opinion or advice. We would like to have the real right to be heard!

The athletes who signed up below do not agree with the latest decisions and with the program of the World Championships 2017, which has been submitted by you in the violation of your own rules only 5 months before the World Championships.
